How to teach this book

Learn to Lead English for Madani Children series features the revision of each level in the next one. This book also follows the same sequence, thus presents all small and capital letters from Nursery textbook on the very initial pages. Teachers should ensure that the students revise the letters in sequence before moving on to their classification and other lessons.

Furthermore, the book classifies small letters under sky, grass, and root letters. At this level the students are expected to write letters by themselves. Therefore, no letters tracing is given here.

After letters, short vowel sounds are also revised here in order to familiarise students with the words and move them forward for learning other sounds as well.

Now the students are familiar with pronouncing short vowel sounds and making words. The next lesson moves slight forward from short vowels and illustrates fifteen (15) more vowel sounds and six (6) consonant sounds. The vowel sounds are either long vowels or diphthongs whereas all consonant sounds are digraphs.
