Preface

It has been a common problem of our society that the children are not socially developed. Therefore, they face a lot of problems in their practical life and for the same reason; their personality is not as much effective as is expected from them. In this technologically upgraded era, there is a plethora of basic hurdles in the development of a child's social relationships. In order to overcome these hurdles, children require education from their early age.

My Knowledge Tree not only fulfils the need for personal and social development, it also makes the younger children well-aware of the world around them along with providing them with sufficient knowledge about health, hygiene and safety. This series includes helpful and practical exercises which are easy-to-follow. Children, if involved in each activity, can grow up to have self-identity, well-built character and greater awareness of technologically upgraded era. It is highly significant for children at this stage to have adequate knowledge about the things in their surroundings. Therefore, **My Knowledge Tree** aims at developing early concepts of science and computer which help children learn and lead.

My Knowledge Tree for Nursery not only elaborates further on the topics covered in Pre-Nursery; it also broadens the knowledge of students with additional topics. The selection of new topics accords with the level of student's intelligence and the requirements of Nursery education. In this book, the students will learn about community workers, helping others, parts of body, uses of the parts of computer and much more. We hope that **My Knowledge Tree** will help children grow in such a way that they learn about their family, professions, country, etc.

This humble effort has been accomplished by the grace of Almighty Allah عَزَّوَجَلَّ, favour of His Noble Prophet Muhammad صَلَّى اللهُ تَعَالٰى عَلَيْهِ وَاٰلِهٖ وَسَلَّم and the spiritual support of our great Shaykh, the founder of Dawat-e-Islami, 'Allamah Maulana Abu Bilal Muhammad Ilyas Attar Qadiri Razavi دَامَتْ بَرَكَاتُهُمُ الْعَالِيَة. This series is presented to young learners and their teachers with the realisation of our weaknesses and limitations, yet we expect the series to be welcomed by the concerned audience. Suggestions or recommendations from teachers, educationalists and professionals to improve the material will be gladly appreciated.
