Madani pearls for parents

1. Good training is of crucial importance in developing a child into a responsible individual of an Islamic society. Realising the responsibilities of ideal parents, inculcate the devotion to Allah عز وجل and His Prophet صَلَّى اللهُ تَعَالَى عَلَيْهِ وَآلِهِ وَسَلَّمَ in children through recitation of the Holy Quran and Naat at home. Madani Channel is a useful source for this purpose.
2. Persuade your children to offer Salah from early age, with the intention of growing them habituated to it, and emphasise to offer Salah regularly as soon as they reach the age of seven.
3. Initiate delivering Dars from Faizan-e-Sunnat at home with the intention of learning and teaching the holy Sunnah of Beloved Prophet صَلَّى اللهُ تَعَالَى عَلَيْهِ وَآلِهِ وَسَلَّمَ.
4. To infuse the respect for parents, teachers and elders, read them some accounts of pious predecessors from the publications of Maktaba-tul-Madinah.
5. To bring them up in accordance with Islamic teachings, adopt good moral conduct, forbearance, gratitude, humility, and follow the teachings of Holy Quran and Sunnah, thus set a practical example for your children.
6. Instill into your children the avoidance of sins like lying, backbiting, slander, quarrel, swearing, unlawful use of eyes, etc.
7. Provide a balanced and healthy diet for the physical growth and health of your children. Feed them on a diet of milk, fruits, etc. with your Halal earnings.
8. Check homework diary of your children daily to become aware of their academic position. Attend parent-teacher/ parent-management meetings regularly.
9. For the rectification of mistakes, avoid beating your children, rather make them understand with love and polite behaviour.
10. Always grant your children with prayers, e.g. blessings in knowledge and practice, long life, etc.

Preface

It has been a common problem of our society that the children are not socially developed. Therefore, they face a lot of problems in their practical life and for the same reason; their personality is not as much effective as is expected from them. In this technologically upgraded era, there is a plethora of basic hurdles in the development of a child's social relationships. In order to overcome these hurdles, children require education from their early age.

My Knowledge Tree not only fulfils the need for personal and social development, it also makes the younger children well-aware of the world around them along with providing them with sufficient knowledge about health, hygiene and safety. This series includes helpful and practical exercises which are easy-to-follow. Children, if involved in each activity, can grow up to have self-identity, well-built character and greater awareness of technologically upgraded era. It is highly significant for children at this stage to have adequate knowledge about the things in their surroundings. Therefore, **My Knowledge Tree** aims at developing early concepts of science and computer which help children learn and lead.

My Knowledge Tree for Pre-Nursery covers up all the areas of knowledge much-needed for pre-schooling children. Some of the topics are 'self-introduction,' 'likes,' 'our religion,' 'living things,' and 'parts of computer,' which greatly help children develop an understanding of all the basic areas of knowledge important for them. We hope that **My Knowledge Tree** will groom the children to be a worthy member of their society, a patriotic citizen of their country and a role model for the entire world.

This humble effort has been accomplished by the grace of Almighty Allah ﷻ, favour of His Noble Prophet Muhammad ﷺ and the spiritual support of our great Shaykh, the founder of Dawat-e-Islami, 'Allamah Maulana Abu Bilal Muhammad Ilyas Attar Qadiri Razavi رَضِيَ اللهُ عَنْهُ. This series is presented to young learners and their teachers with the realisation of our weaknesses and limitations, yet we expect the series to be welcomed by the concerned audience. Suggestions or recommendations from teachers, educationalists and professionals to improve the material will be gladly appreciated.
